WORK EXPERIENCE

Jr Software Developer
Vicon Industries

05/2022 - Present

- Developed and maintained responsive web applications using React.js, ensuring cross-browser and cross-device compatibility.
- Optimized application performance through lazy loading, code splitting, and efficient resource management.
- Designed reusable UI components and implemented state management using Redux and React Hooks.
- Integrated RESTful APIs to ensure seamless communication between front-end and back-end services.
- Conducted unit testing with Jest, ensuring cross-browser compatibility.
- Built and maintained web applications with AngularJS, leveraging directives, services, and dependency injection to enhance modularity and code reusability.

React Developer Intern
Kalyani Studio

01/2022 - 03/2022

- Created reusable and common-use components to maintain consistency across the app
- Collaborate with senior developers to build user interfaces
- Learn and implement tools like Redux, React Router, and React Hooks
- Identify and fix bugs in existing code.

EDUCATION

Bachelor of Engineering
KJ College of Engineering Management and Research, Pune

08/2015 - 06/2018   *60%*

SKILLS

React JS | JavaScript (ES6+) | Redux | Material UI | HTML5 | CSS | SASS | Bootstrap | MySql | Tailwind CSS | Postman | JIRA | GitHub | Jest | JWT | Webpack | Firebase | RestAPI

PROJECTS

Anavio (08/2023 - Present)
- Technology: React, Javascript, Angular, Tailwind CSS, Redux Toolkit, Jest
- Designed and developed the Camera Dashboard for real-time video management and the Users Page for user profile and permission managemen
- Enabled live event tracking, history of past events, and graphs showing device access and denial status.
- Enabled device grouping by site and zone, allowing user assignment and activity tracking
- Enabled email and notification alerts for timely updates on ticket status and escalations.

Anavio Support Portal (10/2023 - Present)
- Technology: React, Javascript, Tailwind CSS, Redux Toolkit, Jest
- Built a support portal using React.js for efficient ticket management, user support, and real-time updates.
- Added dynamic dashboards to track and visualize support metrics, enhancing issue resolution times and user satisfaction.
- Integrated role-based access for admins, support agents, Full Access, Manager, and users to ensure secure and organized ticket handling.

DataLabel PRO (05/2022 - 08/2023)
- Technology: React Js, HTML, CSS, Bootstrap, Javascript, IndexDB,.
- Developed an image annotation tool using React.js with features like bounding boxes and annotations, supporting image upload and import
- Integrated APIs for batch processing, data export, and role-based graphs to track and visualize user activity.
- Implemented role-based permissions to enhance security and manage user access
